

Catheter Adapter

Intended Use:

Designed to be used with Foley Catheter to enable a Luer syringe to be connected, so that the suction or irrigation will be effective without any leakage.

Key Features and Benefits:

- Serrated nozzle for connecting to the Foley or other wide mouthed catheter
- Designed to provide easier grip during the wash
- The Proximal end has a Syringe connector for standard metal, glass tip and disposable syringes
- Compatible with both “Luer Lock” and “Luer Slip” type of syringes
