

Single Step[®] Fascial Dilator (Long Taper Fascial Dilator)

Intended Use:

Used for single step dilation, intended for stretching or enlarging the fascial tissue covering a cavity, tract or opening prior to a diagnostic or interventional procedures

Size (in Fr)
6, 8, 10, 12, 14 & 16

Length (in cm)
20 & 22

Key Features and Benefits:

- Long taper tip for ease of introduction & avoids use of sequential dilation
- Smooth surface for atraumatic entry during dilation
- Optimal radiopacity for better visualization
- Also available with hydrophilic coating for ease of introduction
