

PEDIATRIC SUPRAPUBIC CATHETER PIGTAIL

Size (in Fr)
8, 10 & 12

Intended Use:

Suprapubic Catheter is intended to be inserted percutaneously into the urinary bladder and perform external drainage of urine from the urinary bladder.

Key Features:

- The pigtail tip configuration helps in the retention of the distal tip in the bladder
- Trocar and catheter designed to prevent buckling of catheter during the procedure
- Wide eye hole for better drainage
- Smooth surface for ease of introduction
- Radiopaque for radiologic confirmation of the position
